SUMMARY

I am a skilled IT professional specializing in software development and DevOps with a focus on cloud technologies and database management. With experience in troubleshooting complex issues and optimizing applications, I excel at implementing automation to enhance deployment pipelines. I thrive in collaborative environments and am committed to delivering high-quality software solutions that drive business success.

EXPERIENCE

Senior Application Analyst

Kotak Mahindra Bank (Techplus Infotech Pvt. Ltd)

01/2022

A major banking institution in India, providing various financial services

- Monitoring and resolving real-time issues in the Kotak 811 Mobile Banking application
- Conducted Root Cause Analysis (RCA) and collaborated with development and operations teams
- Performed User Acceptance Testing (UAT) to validate mobile banking features
- Analyzed logs in JSON format and managed backend server operations
- Managed database systems (SQL, NoSQL) and API integrations
- Automated workflows and improved deployment pipelines

Technical Support Engineer

Concentrix

01/2021 - 12/2022

A global leader in customer experience solutions

- Provided technical support for Asus products, resolving hardware and software issues
- Diagnosed and resolved OS errors, driver conflicts, and hardware malfunctions
- Assisted in product setup, configuration, and optimization
- Collaborated with cross-functional teams to resolve complex technical issues

EDUCATION
